NOVELTIES IN FLOWER SEEDS.

MANDA'S IMPROVED GOLDEN-LEAVED SALVIA SEED.

THIS is without doubt the finest introduction made amongst our popular plants for years past, for in this plant we have a contrast of color between the foliage and flowers which is simply marvelous, thus giving it a unique position as a foliage and flowering plant. It grows about one foot and a half high, and is far more dwarf and compact in its habits than *William Bedman*. Seeing it from a short distance, one would take it for the well-known *Golden Bedder Coleus*, except for the masses of brilliant scarlet-flowered spikes which loom up over the yellow foliage. The effect produced when this gem is planted *en masse* on a lawn is extremely fine. The contrast between the golden yellow foliage, the scarlet flowers, and the green grass gives to us the grandest combination of colors imaginable. The color of the leaves is constant and distinct at any stage of the plant inside or outside of doors.

This novelty comes true from seed and may bring out new types.

Price per trade packet, .15, .25, .50, \$1.00

MANDA'S HYBRID CANNAS.

From the very finest varieties only, and sure to produce some extraordinary varieties. Per trade packet, 25 cents.

CALLIOPSIS LANCEOLATA GRANDIFLORA ("California Sunbeams").

Fine type of this well-known plant, flowers measuring nearly four inches in diameter;

Price, per trade packet, 25 cents.

NEW EARLY FLOWERING COSMOS "Dawn"

A beautiful dwarf compact growing variety, flowering from July until frost. The large white flowers are delicately tinged with pink. Price per trade packet, 15 cents.

COSMOS TINTS OF "Dawn."

The flowers have a white ground, finely flecked or flushed with a delicate pink. They are variously formed and very beautiful. Price per trade packet, 15 cents.

COSMOS NEW MARGUERITE.

The flowers, which are lacinated or fringed, resemble Marguerites, but are much more beautiful. They range in color from pure white to dark red. Price, per trade packet, 15 cents.

COSMOS IMPROVED YELLOW.

Flowers, a beautiful yellow, about three inches in diameter, blooming when very young.

Price per trade packet, 15 cents.

COSMOS SINGLE DAHLIA FLOWERED "Crimson."

Splendid flowers of the richest shades of crimson, very large and resemble Dahlias in shape.

Price, per trade packet, 25 cents.

The Five New Cosmos, a packet of each for 60 cents.

CACTUS DAHLIA CONSTANCIA.

Flowers beautiful pure white, borne in great profusion, fine for cutting. Price per trade packet 25 cents.

NEW CACTUS DAHLIA MONARCH.

Immense flowers, with very broad folded petals: color, deep dark velvet red, with mossy yellow centre.

Price, per trade packet, 25 cents.

ESCHSCHOLTZIA (The Golden West).

Flowers mottled yellow, measuring two inches across. Especially adapted to the Eastern climate, owing to their early and long continued season of blooming. Price, per trade packet, 50 cents.

GAILLARDIA, JAMES KELWAY.

A beautiful giant flowering variety, with grand flowers five to six inches in diameter; bright scarlet with a gold margin and fringed edges. Hardy perennial. Price 25 cents per trade packet.

NEW FRINGED MAMMOTH HOLLYHOCK ("Allegheny".)

One of the grandest novelties sent out this year. The flowers, which measure five to seven inches across, are beautifully fringed, and are borne in great profusion. Price, per trade packet, 25 cents.

POPPIES (New Fayal).

The flowers are very beautiful, running in all shades of red, pink, maroon and white; double and single.

Price, per trade packet, 25 cents.

ZINNIA DOUBLE GIANT [Queen Victoria].

The flowers are pure white, very double, and measure nearly four inches across. Very fine.

Per trade packet, 25 cents.

NEW HYBRID WICHURIANA ROSES,

OR THE

DOUBLE MEMORIAL ROSE.

IT gives me great pleasure to offer to the public the first **Hybrids** of *Rosa Wichuriana*, which are the **grandest novelty** of 1898. The habit of these new Roses is the same as the *Rose Wichuriana*, or *Memorial Rose*. The growth is creeping, and therefore can be used to cover the ground, stems of trees, pillars, posts, trellises, or any other purpose desired, including pot culture. They are the **hardiest Roses** I know of, and will stand any climate or exposure. They thrive well in the poorest soil or on a gravel bank. **The foliage** is finely cut, thick, of a leathery substance, bright green, shining as if varnished, not subject to mildew or any insect, but keeps its full beauty until almost Christmas. **The flowers** are produced in the greatest profusion, so that a two or three year old plant will produce several thousand exquisite blossoms, which are deliciously fragrant and last a long time in perfection.

MANDA'S TRIUMPH (Manda.)

This grand Rose is of free growth, luxuriant foliage, and produces large clusters of double pure white flowers, two inches in diameter, beautifully imbricated and well formed, very sweet scented.

UNIVERSAL FAVORITE (Manda).

This is the most vigorous plant of the set. The long branching shoots are covered with dense bright green foliage. The double flowers are over two inches in diameter, and of a beautiful rose color, similar to the Bridesmaid, and deliciously fragrant. A grand variety for any purpose.

SOUTH ORANGE PERFECTION (Manda).

This is a gem, growing freely close to the ground, and having multitudes of the most perfectly formed double flowers, about one and a half inches in diameter, soft plush pink at the tips, changing to white. It lasts a long time in perfection.

PINK ROAMER (Manda).

This is without question a Hybrid between the *Sweetbrier*, and carries these characteristics in bloom, while the growth, which is very rampant, and the luxuriant foliage, partake more of the *Wichuriana*. The single flowers, which are produced in closed heads, are nearly two inches in diameter, bright rich pink, with almost a white centre, which lightens up the orange-red stamens, producing an effect which, combined with fragrance, makes it one of the most valuable roses in cultivation.

Taking them together, the set of the four above varieties should be in every garden, and I am sure they will prove more valuable than the celebrated *Crimson Rambler*, as they are of a much more vigorous growth. Some shoots made last season were from fifteen to twenty feet in length, which is marvellous amongst roses.

These roses have proven everything that has been claimed for them last season, and are in great demand on account of their many qualities.

Price, 2-inch pots, \$12 per hundred. Price, extra strong, 1-year field-grown plants, at \$35.00 per hundred. Few extra strong 2-year old specimens at \$1.75 each.

Colored plate of these Roses, with Press comments, will be sent on application.

TESTED NEW CANNAS OF 1897.

I am very pleased to offer such a grand lot of new varieties of this very popular plant for outdoor bedding; in fact, no garden should be without this collection of five sterling kinds.

CANNA, MANDA'S IDEAL.—(Manda.)

To my mind the finest and most useful *Canna* in cultivation. Naturally it grows from two to three feet high, having small glaucous green leaves, and producing stout stems, which branch and throw up as many as a dozen large trusses of well formed flowers, which are of a rich scarlet vermilion color. A like effect is not produced by any other *Canna* in Cultivation Price, \$1.75 per dozen; \$14.00 per 100.

CANNA, ROBERT CHRISTY.—(MANDA.)

A beautiful acquisition in its color, was raised by Mr. Robert Christy, of Newport, R. I., and has captivated everybody who has seen it. Grows about four feet high, with stout stem supporting large musa-like foliage and producing immense spikes of bright orange vermilion flowers, which is a shade unique amongst *Cannas*. Awarded **First-Class Certificate** by the *New York Florists' Club*. Price, 1.75 per dozen; \$14.00 per 100.

CANNA, JOHN WHITE.—(White.)

This is a distinct novelty in the way of *Cannas*, growing about three feet in height, with reddish stems, light green foliage, beautifully striped with white, yellow and rose, edged with red, the combination of which produces a grand effect, and on account of which it will be valuable for subtropical borders and beds, and for other purposes where fine foliage plants are in demand. Price, 75 cents per dozen; \$6.00 per 100.

CANNA, ITALIA.

One of the wonders of recent introduction, growing from six to nine feet high, with large musa-like foliage. The flower spikes produce a number of extraordinary large flowers of a beautiful scarlet color, edged with yellow. a plant that should be in every collection. Price, \$1.00 per dozen; \$8.00 per 100

CANNA, AUSTRIA.

A companion to the above-named variety, having the same wonderful qualities of growth and flowers, with the exception that its wonderful large blooms are of a beautiful canary yellow, faintly spotted with purple. Price, 75 cents per dozen; \$6.00 per 100.

Collection of the Five New Cannas, one of each, for 50 cents only.

RUDBECKIA LACINIATA FI. PL. ("Golden Glow").

Offered for the first time last year. A hardy perennial plant growing eight feet high, branching freely, and bearing by the hundreds, on long, graceful stems, exquisite double blossoms of the brightest golden color and as large as Cactus Dahlias. Strong plants. 75 cents per dozen; \$6.00 per 100.

RAMBLER ROSES.

Every one knows the **Crimson Rambler**. Since its introduction other colors of this valuable rose have been imported, so that I can offer now the following: **The Crimson Rambler, The White Rambler, The Pink Rambler, The Yellow Rambler**. Strong flowering plants. \$1.75 per dozen; 14.00 per \$100.

NEW PHLOX PANICULATA, "Tom Thumb."

This novelty is quite a distinct departure from this section, as it grows only six to ten inches in height, and on that account will be found very useful for bedding, for edging of beds, or borders. The white flowers are freely produced during the whole summer covering the plant like a mound of snow. The most desirable hardy novelty for 1898. Price of plants, \$1.25 per dozen; \$12.00 per 100.

ABUTILON SAVITSI.

This is a grand novelty, and a very decided improvement on *Souv. de Bonn*. The leaves are heavily marked with a pure silvery white. The variegations are exceedingly beautiful, making it a fine decorative plant. There is no *Abutilon* that can compare with it for striking beauty. 20 cents each : \$2.00 per dozen.

NEW CHRYSANTHEMUMS.

- ALICE F. CAREY.** Fine reflexed pink, good foliage and stem, excellent keeper. Price, 40 cents each; \$3.50 per dozen.

MANDA'S MIXTURES OF CHOICE FLORISTS' SEEDS.

These mixtures are carefully prepared from the choicest named varieties and strains, in proportions such as I know from experience are needed by the trade, and therefore should not be compared with the cheap and inferior mixtures or *sweepings* which are generally offered.
